

Connected and Automated Driving: What's needed from the EU?

Date and location

13 November 2019, Representation of the Free State of Bavaria to the EU, Rue Wiertz 77, 1000 Brussels

Event description

As the new term of the European Commission and Parliament begins to take form, this event will look at what the key objectives should be of the European Union in advancing connected and automated driving. The event aims to identify and discuss some of the major challenges and opportunities and whether the EU and Member States are acting decisively enough from an industry, consumer and society perspective.

Issues expected to be discussed include research and development needs, testing of vehicles on the road, legislative requirements in the area of vehicle communication and cyber security, consumer acceptance and road infrastructure.
