# Volkswagen Group Machine Learning Research Lab

our central pillar:  
**predict the future & control**

fundamental research on  
**probabilistic machine learning**  
unsupervised learning /  
optimal control

OUR MISSION

create alignment between industry, academics, society to make assessable ethical and trustworthy AI

OUR TOPICS

EU legal framework compliance

ethical AI principles & requirements

AI applications standards

AI systems auditing

funded by THE CONSORTIUM

etami translates  
guidelines  
into verifiable ethical  
AI  
for  
voluntary labelling
