DRIVING INTO THE FUTURE

Transversal Session 3 - Experience from national initiatives and next steps towards deployment: the role of the States Representatives Group

Tereza Cizkova

Tereza Čížková is working at the Czech Ministry of Transport as Deputy Director of ITS, Space Activities and Research, Development and Innovation Department. She has been working in the research, development and innovation sector for more than 10 years, now she coordinates the CCAM and RDI mobility policies and activities. Additionally, Tereza is the Representative of the States Representative Group of the CCAM Partnership and also the Head of the Czech Republic's Delegation to the Horizon Europe Programme Committee – Cluster 5 “Climate, Energy and Mobility” Configuration.

Malin Andersson

Malin Andersson is an experienced sustainability innovation leader with a mission to contribute to the transport system being sustainable and efficient for all. Malin has a broad background as an environmental expert in urban planning and construction of real estate and transport infrastructure. She started her career in the private sector at architectural firms, worked at the National Rail and Transport Administrations for a decade and then spent eight years in leading positions at the Urban Transport Administration in the City of Gothenburg. Since 2021 she is Program Director at Drive Sweden/Vinnova.
