From Testing AV's to Deploying a CCAM service

A small/medium sized city in the Netherlands

- Almost 100 000 inhabitants, part of Metropolitan Region Eindhoven
- Growth scenario : +25% new houses by 2040. Impact on traffic and liveability.
- **4 train stations** but a lack of first/last-mile PT solutions.
- Automotive Campus - Strong Ecosystem with Mobility/Energy stakeholders.

Shared CCAM to provide reliable, safe, flexible mobility solutions for **first/last mile transport services**

15+ EU project on **ITS, CCAM**
